

How to Read Your ORELA Score Report
Administrator Examination
English to Speakers of Other Languages (ESOL) Examination
Protecting Student and Civil Rights in the Educational Environment Examination

Overview. This score report provides information about your performance on the Oregon Educator Licensure Assessments® (ORELA®). This score report includes information about each test/subtest(s) you took on the test date indicated on the report, and summary information about your status on the test/subtest(s).

The top part of your score report also includes for each test/subtest your passing status, your score, and the minimum passing score.

Score. Your score is based on all sections of the test/subtest and is reported as a scaled score on a scale ranging from 100 to 300. A scaled score of 240 represents the passing score for each test/subtest.

Performance Indices. Performance indices are provided at the subarea level. These indices can help you understand your areas of strength and weakness on the test/subtest. You do not pass individual subareas. Subarea indices should be interpreted with caution since different subareas contain different numbers of items. Subareas with a greater number of items have more of an overall impact on your total score. For each subarea, you will see the following information.

| Performance Indices | |
|------------------------------|--|
| Multiple-Choice Items | |
| ++++ | if you answered most or all of the items correctly |
| +++ | if you answered many of the items correctly |
| ++ | if you answered some of the items correctly |
| + | if you answered few or none of the items correctly |

Passing Status Summary. This section lists each test/subtest that you have passed to date and the date on which you passed it. An asterisk (*) next to the date indicates that participation credit was earned on that date.
